

Young Expert Exchange for  
Sustainable Development

# Team works! in Germany

## Your opportunity to gain professional experience in Germany

Are you aged between 18 and 30 and looking to expand your horizons? Just about to finish training? Or perhaps just started work? Then you've come to the right place! We at the African-German Youth Office (AGYO) can find you an assignment in Germany that will help you develop your professional skills, grow as a person and improve your global awareness. Not only are you guaranteed to get a fresh outlook, you'll also have the added bonus of being supported by an experienced expert from the Senior Experten Service (SES).

## What we do

Based on your expertise, we'll place you in an appropriate German business or organisation. We'll also organise your stay. During your time in Germany, you'll communicate closely with local experts, sharing your knowledge and learning new approaches. An expert from the SES will be on hand to help with any questions or challenges you might have. They'll also be available outside of work too.

## How long will your assignment be and what are the costs?

Your Team works! assignment will last roughly four weeks. The AGYO covers all the main costs, particularly for flights, accommodation, meals and any preparatory seminars you attend.

## How can you get involved?

Let the SES know you're interested by sending them a letter and your CV. They'll get in touch as soon as an assignment comes up that matches your skill set. They'll also identify an experienced expert to guide you and they'll help with your visa application.

## Where will you live?

Your accommodation will be close to where your assignment takes place. Usually, the SES expert will also live nearby.

## How can you prepare?

Look for a good language course and grasp any opportunities to learn intercultural skills – online or near where you live.
